

Ana's Guiding services...

Mission

All of my programs are designed to connect visitors to this incredible ecosystem, while providing fun for kids of all ages! I strive to exceed your expectations through my pledge to deliver the highest standard of care and service you deserve. As the only guide for my small company, I am able to maintain an unparalleled level of quality and detail that simply cannot be provided by larger growth-oriented companies. I view each tour as an opportunity to share the beauty and appreciation of our National Parks in an entertaining, educational, and memorable way.

Guide Services and Background

I currently specialize in "Step-on" guided services, where I am your dedicated private guide and you provide the vehicle with driver. This guide service is typically used for motor-coach groups, but is adaptable to small private groups, where I guide from the back seat. This allows visitors the convenience of using their own vehicle and saving money. If you would prefer a vehicle and driver, I partner with a local transportation company to offer a variety of vehicle options with drivers, include me as your driver/guide.

I am proud to have designed & guided tours in Jackson Hole and the Greater Yellowstone Ecosystem since 2001. I began offering my own private luxury tours in 2006, when I noticed an opportunity for customized, unique, and high quality educational experiences. For several years I was also a tour director, for the internationally recognized Tauck tour company, as a specialist in the region.

With over 20 years of visitor interaction, I am comfortable with all groups and sizes... including young children, elderly with mobility issues, corporate events, and special itineraries.

My guiding reviews have achieved *Trip Advisor's* Certificate of Excellence 5star Hall of Fame.

Your Tour Experience

During all tours, you are out of the vehicle as often as possible to enjoy the stunning mountain scenery and abundant wildlife of our precious National Parks. Connecting with and understanding the history, geology, flora/fauna, and ecology are also a priority. I hope you find that my enthusiasm, entertaining style, and expertise will help make learning a pleasure and provide a rewarding, fun and memorable tour experience. I honor that your valuable time is priceless and will do my best to exceed your expectations. I can customize your tour in any way and also meet in locations throughout the region to better suit your itinerary. I strive to provide the personalized experience you deserve and the joyful memories you hope to bring back from your visit.

Tour Amenities & Services

I go beyond other "step-on" guide services by providing as many needed extras as the vehicle space allows. I can bring along just about everything needed to make the most of your day. My hands-on learning materials include a Naturalist kit, binoculars, spotting scope, books, maps, kids entertainment, etc.

I also offer travel supplies as needed, such as coolers, folding chairs, towels, sunscreen, bear spray, umbrellas, blankets, etc. Additionally, I can include snacks, beverages, meals, honor special celebrations, etc... and assist larger groups with vehicle charters. I also offer concierge services for itinerary planning, activity bookings and accommodation suggestions.

I look forward to helping create your memories of a lifetime!
